Pak Yin (Timothy) So

+1 (607) 279-9042 | timothyso888@gmail.com | github.com/sotimothy889 | linkedin.com/in/timothy-so-pak-yin

Education

Computer Science (B.A.) In progress

- Current coursework: CS2110 Object-oriented Programming & Data Structures; CS2800 Discrete Math in Computer Science; MATH1920 Multivariable Calculus

May 2026 International Baccalaureate Billingual Diploma Score: 44 / 45

- Physics HL, Maths HL (Calculus BC-equivalent), Economics HL, English, Chinese, Chemistry

Experience and Leadership

Cherrypicks Ltd – *Intern* Aug 2025 - Aug 2025

- Shadowed Senior VP in development of customer support chatbot for Broadway (electronics retailer).
- Researched and prototyped retrieval-augmented generation and LoRA finetuning pipelines in LLMs.

Diocesan Boys' School IT Development Team – *Vice-chairman* Sep 2022 - Jul 2025

- Competitively pitched blockchain server logger, drone-mounted computer vision (*Hong Kong City I&T Challenge* ***1st runner-up***, 2024); competed in cybersecurity CTFs (*PolyU NuttyShell CTF* ***Champion***, 2024).
- Developed team website, competition platform for school-wide tech trivia event; trained 20+ students in Python, HTML/CSS, Kotlin, fundamental software design.

Student Librarians – *Vice-chairman* Sep 2023 - Jul 2025

- Oversaw library operations; led training of junior librarians; organised the Joint School Librarianship Competition.
- Managed and designed the school library website, coordinated with collections staff on new book catalogue data.

Aviation and Transport Club – *Chairman* Sep 2024 - Jul 2025

- Coordinated field trips to exhibitions on railway, aviation infrastructure; managed social media presence.

Chinese Orchestra – *Official* Sep 2020 - Jul 2025

- Competed in Chinese music ensemble and orchestra (*Schools Music Festival Chinese Orchestra* ***Champion***, 2025)

Economics Olympiad Team – *Member* Sep 2024 - Sep 2025

- Competed in the *World Economics Cup* (2025) and achieved ***highest distinction***, ***regional top 10*** personally, and ***Silver Award*** as a team; developed understanding of business operations.

Project experience

Facial recognition image cropper Jan 2025 - Apr 2025

- Developed image processing tool using open-source Haar cascades for detection to batch center portrait images.
- Integrated tool as Adobe InDesign script for grid creation written is TypeScript.

Elevator controller Aug 2025 - Oct 2025

- Developed simulation of skyscraper elevator system with random passenger and destination generation, made playable in plain-text console.
- Trained (RL, DQN) a neural network to optimise the control of the elevator for maximizing capacity.

High dimensional Connect 4 Dec 2025 - Mar 2026

- Developed console game for Connect 4 in higher dimensions with win conditions based on orthogonal or diagonal lines in any dimensions; written in Rust.

Skills

Languages: Java, Kotlin, TypeScript, Python, HTML/CSS, C++, Rust

Frameworks/libraries: React, Flask, NumPy, Jetpack Compose
